Full job description

We are working closely with a specialist concrete remediation builder who has successfully operated in Sydney for the past 35 years across commercial Refurbishment, Heritage, Roofing & Hazardous products. They deliver projects for NSW Government State-wide, Defence and Local Councils.

Reporting to the Project Manager and the Construction Manager, the Site Manager is responsible for ensuring that all site activities are efficiently run, documented, and implemented according to company standards. The Site Manager will oversee sub-contractors onsite ensuring they are delivering aspects of the project to required standards and in good time. Will cover projects with construction values from \$15k - \$10M. Our client is looking for a Site supervisor who can work to tight deadlines and thrive in a fast-paced environment.

To be suitable you must:

- Carpentry trade or bricklayer, plumber water proofer trade.

AUSTRALIAN CITIZEN /
PERMANENT RESIDENT

Company size

11 to 50

- Experience overseeing and supervising site activities ideally in remedial projects, on residential commercial buildings.
- Ability to plan, coordinate and manage sub-contractors.
- Ability to interpret drawings and programmes and develop short term programmes using MS projects
- Ability work diligently and autonomously, as metro and regional project work is required

- Previous experience working with a well-run builder on projects, finding solutions to problems as they arise autonomously.
- Good communication and an intermediate level of computer literacy

Inner city office location, they enjoy a friendly and social atmosphere with a strong team focus. There is a focus on career progression based on capability, not length of service. With a solid pipeline of upcoming projects, there has never been a better time to join.
